

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the consolidated financial position and consolidated results of operations of *Farm Credit Services of Illinois, ACA* and its subsidiaries. The accompanying consolidated financial statements and notes also contain important information about our financial position and results of operations. You should also read our 2007 annual report for a description of our organization, operations and significant accounting policies.

AgriBank FCB's financial condition and results of operations materially affect shareholders' investment in *Farm Credit Services of Illinois, ACA*. To request a free copy of the combined AgriBank, FCB and Affiliated Associations' financial reports or additional copies of our report contact us at 1100 Farm Credit Drive, Mahomet, Illinois 61853, (217) 892-6060. You may also contact AgriBank, FCB at 375 Jackson Street, St. Paul, Minnesota 55101-1810, (651) 282-8800, or via electronic mail to AGRIBANKMN@agribank.com. The combined AgriBank, FCB and Affiliated Associations' financial reports are also available through AgriBank, FCB's website at www.agribank.com.

Loan Portfolio

Loan volume totaled \$1.8 billion at June 30, 2008, a \$239.9 million decrease from December 31, 2007. On May 27, we sold \$551.7 million of a participation interest in real estate loans to AgriBank. AgriBank has established a separate patronage pool for these assets and intends to pay the net earnings back as patronage to us. We anticipate our net income after pool patronage will not be affected. We purchased additional common stock equal to 8% of the pool assets. The sale of the assets will improve our regulatory capital ratios. The decrease in loan volume due to the sale to AgriBank, FCB was offset by an increase in loan volume due to strong demand for mortgage loans.

The following table summarizes risk asset and delinquency information (in thousands):

As of	June 30 2008	December 31 2007
Loans:		
Accruing restructured	\$52	\$124
Past due 90 days or more still accruing	336	197
Nonaccrual	4,532	2,931
Total risk loans	\$4,920	3,252
Other property owned	7	7
Total risk assets	\$4,927	\$3,259
Risk loans as a % of total loans	0.3%	0.2%
Total delinquencies as a % of total loans	0.3%	0.2%

Our risk assets have increased from December 31, 2007, due to an increase in nonaccrual loan volume, but remain at acceptable levels. At June 30, 2008 57.3% of our nonaccrual loans were current.

The 2008 planting season has run late due to repeated rain in some areas to out right flooding in other areas. Some fields were just planted in late June, while other areas were replanted, several times in some respects. The potential for a less than average crop exists for several areas so additional volatility is expected in commodity prices and the net profit ability of our cash grain customers. The livestock sector is starting to reflect the stress of high feed prices and sale prices at or below the cost of production.

The allowance for loan losses is an estimate of losses on loans in our portfolio as of the financial statement date. We determine the appropriate level of allowance for loan losses based on periodic evaluation of factors such as loan loss history, portfolio quality and current economic and environmental conditions.

Comparative allowance coverage of various loan categories follows:

	June 30 2008	December 31 2007
Allowance as a percentage of:		
Loans	0.1%	0.1%
Nonaccrual loans	51.1%	77.7%
Total risk loans	47.1%	70.0%

In our opinion, the allowance for loan losses was reasonable in relation to the risk in the loan portfolio at June 30, 2008.

Results of Operations

Net income for the six months ended June 30, 2008 totaled \$19.5 million compared to \$13.2 million for the same period of 2007. The following table illustrates profitability information:

As of June 30	2008	2007
Return on average assets	1.9%	1.5%
Return on average members' equity	11.3%	8.4%

The following table summarizes the changes in components of net income for the six months ended June 30, 2008 compared to June 30, 2007 (in thousands):

Increase (decrease) in net income	2008 vs 2007
Net interest income	\$3,657
Provision for loan losses	264
Patronage income	1,545
Financially related services and miscellaneous income, net	2,182
Operating expenses	(1,437)
Provision for income taxes	124
Total change in net income	\$6,335

Net interest income was \$24.3 million for the six months ended June 30, 2008. The following table quantifies changes in net interest income for the six months ended June 30, 2008 compared to June 30, 2007 (in thousands):

Change in net interest income	2008 vs 2007
Changes in volume	\$3,368
Changes in rates	286
Changes in nonaccrual income and other	3
Net change	\$3,657

The change in the provision for loan losses is related to our reduction in loan volume as well as our estimate of losses in our portfolio. The increase in patronage income is due to increased patronage income from AgriBank, FCB. The increase is due to \$1.1 million of patronage income received on participations sold to AgriBank, FCB during the second quarter as well as due to an increase in our note payable amount. The increase in financially related services and miscellaneous income, net is primarily due to an increase in multi-peril crop insurance income. The operating expense increases were primarily related to salaries and benefits expense, purchased services expense, compensation to associations' expense and Farm Credit System insurance expense. The change in provision for income taxes is related to an increase in taxable income.

Changes in our return on average assets and return on average members' equity are directly related to the changes in income discussed above, changes in assets discussed in the Loan Portfolio section and changes in capital discussed in the Funding, Liquidity and Capital section below.

Funding, Liquidity and Capital

We borrow from AgriBank, FCB in the form of a line of credit. Our promissory note matured on May 29, 2008, and was renewed for \$2.5 billion with a maturity date of July 31, 2009. The note will be renegotiated at that time. The repricing attributes of our line of credit generally correspond to the repricing attributes of our loan portfolio which significantly reduces our market interest rate risk.

Total members' equity increased \$19.7 million from December 31, 2007, due to net income for the period and an increase in capital stock and participation certificates.

Farm Credit Administration Regulations require us to maintain a permanent capital ratio of at least 7%, a total surplus ratio of at least 7% and a core surplus ratio of at least 3.5%. The calculation of these ratios according to Farm Credit Administration Regulations is discussed below:

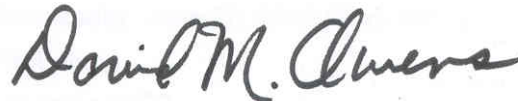

- The permanent capital ratio is average at-risk capital divided by average risk-adjusted assets. At June 30, 2008, our ratio was 13.3%.
- The total surplus ratio is average unallocated surplus less any deductions made in the computation of permanent capital divided by average risk-adjusted assets. At June 30, 2008, our ratio was 13.0%.
- The core surplus ratio is average unallocated surplus less any deductions made in the computation of total surplus and less any preferred stock investment in AgriBank, FCB divided by average risk-adjusted assets. At June 30, 2008, our ratio was 13.0%.

The capital adequacy ratios are directly impacted by the changes in capital as more fully explained above and the changes in assets as further discussed in the Loan Portfolio section.

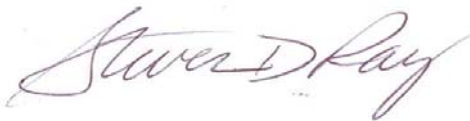

The undersigned certify that they have reviewed *Farm Credit Services of Illinois*, ACA's June 30, 2008 quarterly report and that it has been prepared under the oversight of the audit committee and in accordance with all applicable statutory or regulatory requirements and that the information contained herein is true, accurate, and complete to the best of our knowledge and belief.

The accompanying notes are an integral part of these consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: Organization and Significant Accounting Policies

Our 2007 annual report contains a description of our organization and operations, significant accounting policies followed, and financial condition and results of operations as of and for the year ended December 31, 2007. You should read these unaudited second quarter 2008 consolidated financial statements in conjunction with the 2007 annual report.

The accompanying consolidated financial statements contain all information necessary for a fair presentation of the interim consolidated financial condition and consolidated results of operations. Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America and the prevailing practices within the financial services industry. The results of the six months ended June 30, 2008 are not necessarily indicative of the results to be expected for the year ended December 31, 2008.

The consolidated financial statements present the consolidated financial results of *Farm Credit Services of Illinois*, ACA (the parent) and *Farm Credit Services of Illinois*, FLCA and *Farm Credit Services of Illinois*, PCA (the subsidiaries). All material intercompany transactions and balances have been eliminated in consolidation.

Recent Accounting Development

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157 – *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement clarifies that the term fair value is intended to mean a market-based measure, not an entity-specific measure. In measuring fair value for a financial statement item, the Statement sets forth a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The highest priority is given to quoted prices in active markets and the lowest priority to unobservable inputs. Additional disclosure requirements will be required for the lowest priority level. The Statement became effective as of January 1, 2008. There is no material impact on our financial position resulting from the adoption of this Statement.

In February 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 159 – *Fair Value Option for Financial Assets and Financial Liabilities*. The Standard permits entities to choose on an instrument-by-instrument basis, at specified election dates, to measure financial assets and liabilities and certain other items at fair value (the “fair value option”). Unrealized gains and losses on items for which the fair value option has been elected must be reported in earnings at each subsequent reporting date. Upfront costs and fees related to items for which the fair value option is elected shall be recognized in earnings as incurred and not deferred. This Standard became effective as of January 1, 2008. We have not made any elections under the fair value option, thus there is no impact of the adoption of the Standard.

NOTE 2: Allowance for Loan Losses

A summary of changes in the allowance for loan losses follows (in thousands):

Six months ended June 30	2008	2007
Balance at beginning of year	\$2,278	\$1,725
Provision for loan losses	59	323
Loan recoveries	(3)	7
Loan chargeoffs	(16)	(9)
Balance at end of period	\$2,318	\$2,046

NOTE 3: Contingencies

In the normal course of business, we have various contingent liabilities and commitments outstanding, primarily commitments to extend credit, which are not reflected in the accompanying consolidated financial statements. We do not anticipate any material losses because of these contingencies or commitments.

From time to time, we may be named as a defendant in certain lawsuits or legal actions in the normal course of business. At the date of these consolidated financial statements, we were not aware of any such actions that would have a material impact on our financial condition. However, such actions could arise in the future.

NOTE 4: Income Taxes

In June 2006, the Financial Accounting Standards Board released Interpretation No. 48 – *Accounting for Uncertainty in Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition of an uncertain tax position taken or expected to be taken in a tax return. In January 2008, the Board delayed the effective date of this Interpretation for nonpublic companies until the 2008 calendar year. Upon adoption of this Interpretation during the first quarter of 2008, we had no uncertain income tax positions to recognize.
